Languages:

- C, C++, Java, Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries:

- Tailwind CSS, Boot Strap, React JS

Databases & Tools:

- PostgreSQL, MySQL
- Git, GitHub

LANGUAGE

- Khmer
- English

ABOUT ME

I am Information Technology Engineering student with foundations in software development, database design, and web technologies. Skilled in designing efficient database schemas and implementing core data structures and algorithms. Seeking an internship or entry-level software engineering role to apply hands-on development skills to practical solutions.

EDUCATION

Bachelor's of Information Technology Engineering 2024 - Present

Royal University of Phnom Penh, Phnom Penh

- Core Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), Relational Database Management Systems (RDBMS), Web Development (HTML/CSS/React), English for Computer Science.
- Key Achievements: Built hands-on academic projects in Java, Python, and SQL with a focus on clean architecture and database efficiency.

High School Diploma 2018 - 2024

Kampong Speu High School, Kampong Speu

- Focus: General Education with a focus on Mathematics and Sciences.
- Enhanced problem-solving and critical-thinking abilities.

PROJECTS

Student Management System | Python, Data Structures & Algorithms

- Implemented core data structures (hash tables, custom search, and sorting algorithms) to handle student records, search operations, and data management efficiently.

Neo-Shop E-Commerce Web Application | React JS, Tailwind CSS, JavaScript

- Developed a responsive, modern front-end user interface for an online shop, implementing dynamic product listings, search filtering, and user interaction components.
- Structured clean front-end application state to prepare for upcoming RESTful API integration and backend connection.
